Hon. Commissioner of Patents and Trademarks, Washington, D.C. 20231, Box
AF.

Sir,

No response from Examiner Laufer.P

Please note that I have not yet received the Examiner's response to my amendment proposal filed on Nov., 3, 97, which is within the first 2 months of the 3 months shortened statutory period, please ensure the response will be sent out at the earliest time possible.

In his response, the Examiner is respectfully requested to indicated the following :

A) Whether "so as for discouraging ... to someone else" as readable on that amendment proposal, P.2, lines 1 to 3 and B) "to protect ... by discouraging .. duplication copy" as readable on the amendment proposal filed on Dec., 10, 97, P. 1, claim 1, lines 2-4, are new issues ?

I have filed a letter to the Supervisory Patent Examiner Thomas H. Tarcza on Feb., 13, 98, requesting for such a response, however, there is still no response.

Further, since that amendment proposal filed on Nov., 3, 97, which is within the first 2 months of the 3 months shortened statutory period, the shortened statutory period should not have been expired and should be extended to the date the Examiner send out his response thereto. However, the Examiner incorrectly refused to consider and respond to my amendment proposals filed after Jan., 19, 98 and incorrectly requires me to file an extension fee calculated from the end of the 3 months shortened

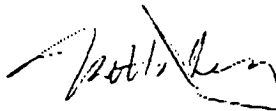

statutory period, together with a petition, please look into this matter immediately and make sure that the Examiner will send out his response to those amendment proposals filed after Jan., 19, 98 at the earliest time possible.

Thank you for your attention !

Sir,

No response from Examiner Laufer, P

Yesterday, I sent you a fax with the same title. Here I submit more information about this matter.

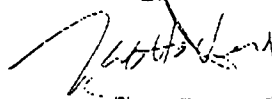

The Examiner did sent out a response on Dec., 15, 97, before the end of the 3 months shortened statutory period, but as indicated thereon, it is merely responsive to my amendment proposal filed on Dec., 10, 97, and it is only readable thereon reasons why the Examiner refuses entry of my amendment proposal filed on Dec., 10, 97, there is mention about my amendment proposal filed on Nov., 3, 97, within the first 2 months of the 3 months shortened statutory period.

The Examiner also sent out several other responses, but none of them are responsive to my amendment proposal filed on Nov., 3, 97 and they are sent out at a time after the 3 months shortened statutory period.
